## CRITICAL COLLECTION PROBLEMS COMMITTEE

MEMORANDUM FOR: CCPC Members

SUBJECT : Program for CCPC Analysis of Intelligence Activities  
Against Communist China and North Korea

1. Transmitted herewith in outline form is a general plan for CCPC review and analysis of intelligence activities directed against Communist China and North Korea. You will recall that the drawing up of such a plan was discussed at the 5 May CCPC meeting. At that time it was agreed by the membership that use of a general framework for reporting by CCPC members on China and North Korea would be of value. While an overlap of intelligence activity can be anticipated in some areas, it will be necessary for CCPC members to submit separate reports on Communist China and North Korea to facilitate assimilation of data.

2. The outline is necessarily general in nature and is intended only as a guide for submittal of reports by Committee members. While it will be useful for assimilation purposes if reports on Communist China and North Korea are submitted to the Chairman in the form indicated in attachment, CCPC members are encouraged to deviate from this pattern if in their judgment some subject matter can be presented more clearly in a different format.

3. I have asked the CCPC Staff to inventory all the more recent actions taken by the community to examine existing and potential U.S. intelligence assets directed against Communist China and North Korea in the hope that the utility of this material may save the Committee considerable time and duplication of effort. A brief report on this subject will be submitted to the membership for consideration at the next meeting of the Committee.

4. At the next meeting of the Committee a target date for completion of the reports on Communist China and North Korea will be discussed. It is recommended that you initiate action on these problems within your own organization as soon as possible. This should help to give all concerned a better idea of the time span for completion of work and submittal of reports.

Major General, USAF  
Chairman
